Raymond Hi Lights

Mr. Low, in Grade XII history, "Since the Germanic invasion there have been four great events in history: The Renaissance, the Reformation, the French Revolution, and the game between Magrath and Raymond Hi. Scrool basketball teams."

Grade XI are rejoicing after athletic class last Tuesday. Every one in the room was prepared. Now for the peanut bust.

A great mystery is exciting the Freshmen. Where can their banner be? Sometime between four o'clock Friday and 9 a.m. Monday this ensign was appropriated by some wandering scout of the opposing camps. Grade XII have received the most blame, but the Sophmores say the least. We have heard, unofficially, that reward and honor await the person giving information leading to the recovery of the said banner.

Grade XII Chemistry class, after laboriously cleaning the laboratory last Friday, earnestly hope that the inspector will come before the Juniors get another "lab period."

And speaking of Juniors—they are all excited Watch for the Junior Prom

We hear that special mention should be made of the sportsmanship of the Browning players. The referee was as efficient and impartial as a machine; and the Union Jack decorated hall, the friendly attitude of the Americans was an example to every town.

SPORT NOTES

Friday night our high school champs completely bulldogged Steeds famous short-horns in the struggle which ensued in MView. The boys were handicapped since the building was poorly lighted with four barnyard-lanterns, however they emerged from the gloom victorious the score being 34-30. The trip from Cardston to Browning decreased the candle power of the players and the sight of so many apache maidens did the rest. The team played well and excelled in floor pay and basket shooting throughout the game but were unable to exhibit to the spectators such playing as they have displayed all season, likely the strange floor handicapped them as well as the long rough ride.

We feel certain that our boys will win in their return game even as the good old Ray. Hi. has done all season.

Nearly every business block on Broadway has had cinders hauled in front on the street. It helps a great deal.

DID YOU EVER STOP TO THINK

By Edson R. Waite

That the home-owned, home-operated stores of your city are dependable for they are run by your neighbors and your friends—citizens who are putting what they make back into the home city to make it more prosperous, not sending it away to help make some other city bigger.

Their stocks are the best obtainable. You should keep well acquainted with them; you should take pride in the supremacy these business concerns have established. They think quality first, then price.

No city can move ahead nor can its people be prosperous when home pride is lacking. People who make money in the home city and spend it elsewhere lack home pride.

Citizens cannot act with effect unless they act in concert. If they are not linked together with home pride and common interests, they and their city are indeed in a bad shape.

Better business for your home merchants and neighbor lays the foundation for a better and more dependable city.

Your city will be able to meet the keenest competition from other cities only through consistent cooperation of its citizens to build better local business.

It's always better to be safe than sorry. The local merchants who advertise in this newspaper guarantee their merchandise. Read their advertisements before you buy.

Idlers Win Over Leth. Deuces

The Hot Spot

KEN. STONE wondering when the last course as coming. REG. COOPER declaring it was easier to work all day than to make a speech. W. C. STONE arriving just too late for the easiest and most enjoyable part of the program. HARRY FAIRBANKS declaring Lethbridge would be easy after such a feed. RAY WOOLF, being classed with the other bald-headed men of the A. A. A. who are such hard workers. THE HIGH SCHOOL TEAM looking for a good night's sleep lost on the Browning trip. GENE PEARSON wondering why some days don't have more than just 24 hours in them.

Here and There

(440)

In its five years of operation as a subsidiary of the department of colonization and development, Canadian Pacific Railway, the Canada Colonization Association has placed 4,225 families on \$36,000 acres of land in western Canada. Colonel J. S. Dennis, president of the association, submitted to its directors at Winnipeg recently. The association has at present opportunities to settle 1,507 families on 332,596 acres in the prairie provinces.

Cash prizes exceeding \$200,000 will be offered at the World's Grain Exhibition and Conference to be held at Regina, August 1-13, 1932. The major prizes totaling \$70,000 will be for wheat. It is aimed to have field tests to verify the purity of the grain and also to have milling and chemical tests to establish quality.

Immigration to Canada during the six months, April 1 to September 29, 1929, totalled 129,338, of which 51,781 were British; 20,703 from the United States; 21,891 from north-western Europe, and 25,957 representing 33 other races. Total immigration same period of 1928 was 123,713.

Official opening of the enlarged Empress Hotel at Victoria to which a huge addition has recently been completed at a cost of approximately \$3,000,000 will be held December 21, it is announced by H. P. Mathews, general manager of Western Canadian Pacific Hotel.

Gold produced in Ontario in the first nine months of 1929 had a value of \$21,735,562, or in excess of a million dollars over value of production in first nine months of 1928.

Breaking all previous records for handling of Japanese oranges, a special Canadian Pacific Railway train consisting of 22 cars of the Oriental fruit, arrived at Winnipeg recently about 60 hours after leaving the coast, in time for the first Yuletide oranges to be on the market. The whole consignment from the coast consisted of 60 box cars holding a total of 3,250,000 of the Japanese delicacy.

About 2,809,000 fry and 240,000 eyed eggs, a total of 3,049,000 prospective fish, was the record output of the Banff hatchery this past season. The eggs were conveyed with difficulty by pack horse to the Bear Creek Valley watershed of Lake Louise. The fry were widely distributed over western areas.

Statistics show an increase of 1,036 vessel arrivals in the Port of Vancouver for the first nine months of this year above the number for the same period last year. Net tonnage shows an increase of 251,648 tons inward while outward tonnage shows a corresponding increase. Grain arrivals was made up of 22 more deep-sea vessels; 22 foreign coastwise; and 992 more local coastwise.

Editors representing the leading farm papers of the United States will tour Eastern Canada by special train next summer as result of a joint invitation extended to the American Agricultural Editors' Association at their annual convention recently held at Chicago, by representatives of the Canadian Government and the Canadian Railways. The tour of Canada will last fifteen days and will afford the visiting editors an opportunity to study the agricultural and industrial development of the provinces of Ontario, Quebec, New Brunswick, Prince Edward Island and Nova Scotia.

A good crowd was present at the Opera House on Wednesday when the Lethbridge "Deuces" were here in a championship game with the Raymond "Idlers" for the Southern Alberta Division championship.

It was a good game and from the first whistle the teams were at it with all their strength. The "Deuces" broke away at the start and rolled in a couple of baskets and a field shot before the "Idlers" hit their stride, and then the tide turned and the Kirkham, Kenney, O'Brien trio stated their combination work, and time after time the pass ended with one of these three being under the hoop to put the cowhide through. Hawkins and Strong on the defence played a brilliant game and worried the Deuces a great deal every time they got in the territory of their net. Hague and Fairbanks went in for most of the second half and kept up the good work.

Donaldson, for the visitors, played very good ball, but Lethbridge was kept too busy with defence work for their forward line to get in the team work that Raymond showed. They played a good clean game and went down with their colors flying. Five fouls were called on Lethbridge and 10 on Raymond.

The lineup and points were:

"Deuces"	
Donaldson	13
Keel	8
Glanville	0
Kenney	2
Lee	7
Green	2
Russell	5
Total	37
"IDLERS"	
Kirkham	27
O'Brien	11
Kenney	15
Hawkins	2
Strong	2
Hague	6
Fairbanks	2
Total	65

RAYMOND HIGH WINS

PRELIMINARY

The Challenge game between the local High and the Magrath High was a game featured by long shots and a lack of combination work on both sides. Magrath played a five-man defence and lost a lot of good chances to score and Raymond repeatedly naussed up good passes and made shots the full length of the hall. The score was 40-55.

Ken Stone and Earl Zemp handled the whistles for both games.

Banquet Is Great Success

A decidedly successful banquet was held at the Club Cafe on Sunday afternoon last when the Raymond "Idlers" Executive tendered a banquet to the Managers and members of the "Union Jacks" and "Idlers" Basketball teams and a few invited guests, numbering 25 in all.

The management overdid themselves in the splendid "eats" that graced the tables, and those present did full justice to the numerous courses of the menu.

When the meal was finished, President Chas. E. Fawcett, of the R.A.A. expressed his pleasure at the splendid gathering, also for the record the teams had made in their basketball games this winter, and then called on a number of those present for speeches all of whom voiced their appreciation for the success that had attended amateur sport here this winter.

That the get together will do a great deal of good goes without saying. The players were made to feel that the Executive fully appreciates their efforts, and the Executive know how much their efforts are appreciated, probably better than they ever knew it before. Such harmony, such good feeling, and such optimism cannot help but aid the teams in their play downs, and help to bring the Provincial Basketball Championships to Raymond.

Those present were: Chas. E. Fawcett, Reg. Cooper, Reed Kirkham, Dick O'Brien, Bill Fairbanks, Poley Hawkins, Jos. Strong, A. Hague, E. Stone, Ross Humphreys, M. Rayo Woolf, Chas. Lafferty, Chas. Asplund, Czar Fairbanks, T. W. Meldrum, S. I. Hay, Dave Povelson, Jos. Wooley, R. Fairbanks, W. Hague, Andy Lund, Harry Fairbanks, Cliff Nalder, DeLors Land, L. D. King and W. C. Stone.

The Crash in Wheat Prices

This week's crash in wheat prices will cause a good many farmers to pause and consider their acreage plans for 1930. And well it might.

There is no doubt that there is a feeling against Canadian wheat in the Old Country at the present time. That is said to have been engendered by two things:

1.—The fact that, in 1927 and 1928, Canadian wheat grades were below the expectations of British millers. This, in spite of the howl which went up in this country in those years that the government graders were giving the farmers the worst of it.

2.—A feeling that Canadians are trying to get a price for their wheat over the world price, and out of it with it. Together with this is said to be a feeling of resentment on the part of British grain importers against the Canadian wheat pools for setting up their own marketing organization in the Old Country, thus cutting them as middlemen, out of the picture.

Whatever may have been the cause of the collapse this week, there is no doubt that the real reason is the increasing world production of wheat, which had, during the past three or four years, piled up ever increasing carryovers, with the result that the supply became top-heavy.

What today is on the bargain sale there remains to be seen, but on this counter, how long it may remain, page we have uttered the warning that, with the revolution in the machinery of wheat growing, a huge increase in acreage in the sub-tropical wheat

belts of the earth is going to mean the battle from now for the next five years is going to go to the country which can produce and market it wheat most cheaply. There may come years of below normal crop averages which will boost the price, but the tendency is going to be downward until such time as wheat growing on high priced land, by the old hand method is driven out of the picture.

The Southern Albertan who would meet this threat will tend to do so by cutting his acreage in wheat somewhat, growing barley and oats for livestock instead. He will boost the per acre yield of the wheat he does raise by building up soil fertility, swatting the weeds, and by using good pure seed. Thus he will cut the cost of producing a bushel of wheat. The reduced acreage will be given over to feed for livestock, and Canada will make an effort to produce more bacon, more eggs and poultry and more dairy products for the Old Country market. We can expansion in wheat—so far as prices are concerned are not very bright.

Can we grow some feeds for livestock on our summerfallow, paying for the cost of summerfallowing in the year in which that operation takes place, and thus cut down the costs charged against each bushel of wheat. We must look for economy methods, and that may be one way out. There is no doubt that summerfallow, good as it is for the succeeding crop, is expensive business. — Lethbridge Herald.

The Week in the Alberta Legislature

The third full week of the session passed in comparative quiet but with much accomplished. The debate on the budget was finished Monday, the Natural Resources Bill practically disposed of on Wednesday, and the estimates of two big departments passed on the last two days. In between times the House managed to pass the second reading of the Floral Emblem Bill, to amend the house rules by dropping No. 28, and to appoint a committee to investigate the question of aiding the children of ex-service men to secure secondary education.

Promptly on Monday, W. W. Prevost (Lib.) Edmonton, took up the defence of the Farm Loan Board which had been strongly attacked by G. A. Forster (U.F.A.). The Board was lending money granted by the Federal Government to stabilize the loan market for farmers. Much of this had already been granted and a large part of it in Alberta. Further funds for this purpose would have to be raised on the open market.

Mr. Duggan, (Con.) Edmonton, supported Mr. Forster's contention. While he admitted that the Board should not take unsatisfactory risks there was room for some discretion. It should not pursue a more rigid policy than do the private loan companies. Lorne Proudfoot, (U.F.A.), Airdrie, in his turn attacked the Board for blacklisting whole areas. The policy had been detrimental to the districts and had depressed land values there. To the best of his knowledge not a loan, not an inspection had been made, not an application had been favorably considered in his constituency.

The Conservative leader's (Mr. Duggan) attack on Mr. Greenfield aroused the ire of the Premier. After Mr. Duggan had stated that although his party was in favor of maintaining an agent in London, and although Mr. Greenfield might be a good man, he didn't fit happily, Mr. Brownlee pointed out that the provincial agent's work in securing a better feeling for Canadian wheat in England was worth one, two, three or even four years of his salary. Seven speakers, including Mr. Duggan, took part in the last installment of the budget debate. The Conservative leader attacked the government generally because the expenditure was increasing at the rate of a million a year without a corresponding growth in population to warrant it. During his speech Mr. Duggan supported the government's move in backing the Wheat Pool. The defeat of co-operative marketing at this time would set the province back 25 years.

Col. C. Y. Weaver, (Con.), Edmonton, received the support of the House in his request for a committee to investigate the aiding of the children of ex-service men to secure secondary education. The Labor members felt that any such aid should be extended to the children of women receiving payments under the Workmen's Compensation Act and Mothers' Allowances, and they moved an amendment to this effect. The Liberal leader, Mr. Shaw, felt that such aid should not be restricted to children of certain classes. Mr. Brownlee was willing to let the motion pass though not to commit the government in any way. The care of ex-service men and their dependents is a matter being looked after by the Federal government. Mr. A. M. Matheson, (U.F.A.) Vegreville, was not in favor of special consideration for any one group. The state owes educational opportunities to all children. He opposed burdening the small farmer to pay for higher education for children of parents much better off in most cases. The amendment was defeated and the motion passed 31-9.

The Natural Resources Bill has now passed its clause by clause examination in Committee of the Whole House, but it will not receive its third reading till later in the session. This will permit further changes to

News Notes

James S. Anderson went to Cardston on Monday's train.

T. O. King left on Saturday morning's train for Winnipeg on business.

Gordon Brewerton, Cardston, was a Raymond visitor on Wednesday.

Sam Dyson returned Saturday, from the Weed Inspector's Convention held in Edmonton.

Raymond was almost a deserted city after the train left on Thursday afternoon.

The outside wards were well represented at Stake Board and Priesthood Meeting on Sunday.

The weather over the week-end would equal California's best brand. Yes, this is SUNNY SOUTHERN ALBERTA.

Both Ward Mutuals are busy now on their Contest Work in drama, public-speaking, story-telling, vocal and instrumental music.

W. P. Litchfield and T. Geo. Wood were the speakers in the First Ward Sacrament Meeting Sunday evening. Misses Nilsson and Nalder rendered a splendid vocal duet.

One window was broken in the Opera House at the "Aces" "Jacks" game Thursday night. The wonder is that there were not more broken considering the number standing in them.

The infant daughter of Mr. and Mrs. Loren Larson passed away Sunday evening about 6:30 p.m. The parents are heart-broken, and the deepest sympathy of the community goes out to them in their sorrow.

he made if necessary. The general impression seemed to be that the premier had made a good bargain and, though there was criticism on minor points, all parties worked together to help put the bill through. The Conservatives attacked clauses 12, 14, 15 particularly. They think that the province should have legislative jurisdiction there and that the right of the Indians to hunt for food should be carefully safeguarded. Col. Weaver showed historically that Alberta had just as much right to special indemnity for the federal retention of her natural resources as had Manitoba. The member for Vegreville Mr. Matheson doubted the advisability of leaving large areas of the provincial domain in federal hands but he would agree since it seemed to be the custom. Ottawa would be willing to open up the question if it appeared that the province was not being fairly treated. Both Liberals and Conservatives took exception to the appointment of F. E. Osborne as Alberta's representative on the Board now sitting in Ottawa to determine what special indemnity shall be paid to this province. In spite of the attacks, Mr. Brownlee continued to think his choice a good one. In reply to questions the premier stated the government's position in regard to civil servants affected by the transfer. The government refuses to commit itself at all but some Dominion employees will probably be absorbed. Where the two services now overlap as in land inspection savings will be affected and in other cases existing services will be extended. All those not employed by the province will be provided for by the Dominion. The premier stated further that the provincial service was just as attractive as the federal service, in his opinion. Mr. Shaw pleaded that those involved should not be kept too long in suspense.

On Thursday the estimates of the Department of Agriculture amounting to \$715,454 from income and \$65,450 from capital were passed. The vote for \$48,638 for the 7 agricultural agents raised a storm. Geo. MacLachlan (U.F.A.) wanted to know why some sections were specially favored in this respect. He was strongly supported by A. L. Sanders (U.F.A.) whose district also lacks an agent. N. S. Smith (U.F.A.) Olds suggested that the grant and the number of

THAT PECULIAR STREAK

We often wonder if we are really independent in our thinking, and if we look far enough ahead to see the benefit or the contrary of our thoughts and words.

February has been a decidedly mild month. The snow has practically all disappeared and there has been no storm of any consequence during the month. To most people the weather has been delightful and fully enjoyed, but to some it is a sure sign of a dry summer and an almost total loss of a total crop failure.

Just how a lot of snow piled on hard frozen ground and 40 below zero weather is going to add much to the moisture of the summer we can't tell, and we have never seen a sure sign of Alberta weather yet.

We do not say that people should not be interested in the future, certainly we all should. But we cannot see why it is that some people can never enjoy anything; why they never see anything but the hole in the doughnut; and why they make themselves old and a nervous wreck worrying over things they can't help, and expect all others to do likewise.

WHY NOT U. S. HONEY

DURING THE PAST several weeks Alberta weekly newspapers have been approached by the Alberta Development Board for their support in a campaign designed to influence consumers in favor of "Made in Alberta" products. The campaign is a worthy one, and the Alberta Development Board is a live organization. But, we would call that organization's attention to the inconsistency displayed by one of Alberta's leading producers.

While at breakfast this morning, we reached for the honey jar. It was a very attractive container and we confess a liking for honey—good honey: the kind that is produced in Alberta by the Redell people. And that little glass jar of honey was purchased in preference to other brands, because it was produced in Alberta.

But, imagine one's chagrin when a glance at the label disclosed the fact that it was "Printed in U. S. A." There are a hundred printing plants in Alberta which might have produced that label and improved upon its design, but the producer who is catering to the Alberta consumer steps across the international border and buys a foreign label to advertise his product, which he hopes to sell in his home market.

Straws point which way the wind blows and this little incident is but a sample of the inconsistency of many Canadian manufacturers when it comes to purchasing labels, wrappers and containers. And now, can we be criticized if we are converted to the use of United States honey?—Hanna Herald.

ALBERTA MOUTH HEALTH CAMPAIGN

It is already too late for many of those who have reached adult years to have more than remedial work done upon their teeth, but it is not so with the children and particularly with those of pre-school age. It is here that preventive dentistry can be practiced with the most lasting benefits both to the individual and the state. With the idea of saving the men and women of tomorrow from the suffering and disease of the present generation the gospel of preventive dentistry is being carried to the homes and schools of Alberta.

The Campaign is being conducted by the Canadian Dental Hygiene Council, working in co-operation with the Department of Health and the Department of Education of the Province, and the Alberta Dental Association. The Province has been divided into twenty-two districts for the purpose of the organization of this great campaign.

Preventive dentistry does not mean visits to the dentist's office. It is education of the young people in the proper care of the teeth, and that means less trouble in adult years and a healthier and happier people.

Every child attending school in the Province of Alberta will receive instruction in dental hygiene during the next sixty days through the medium of the province-wide campaign which is being conducted by the Canadian Dental Hygiene Council.

It is the greatest good health campaign ever attempted in the Province of Alberta and will be of outstanding benefit to thousands.

MEMORIAL DRIVE GREAT SUCCESS

The true spirit of patriotism was shown by the people of Raymond and district last Saturday when a Tag Day concluding with a Grand Ball at night was put over by the local War Vets, assisted by the ladies of the W. I. and the U.F.A., the latter two bodies being largely responsible for the outstanding success.

During the dance a delicious lunch was served and a nice sum of money realized from this. Mothers of some of the Great War Veterans were honored guests during the evening.

Dr. G. W. Leech and Mayor Cope were very busy Masters of Ceremonies and kept things moving smoothly. The orchestra are deserving praise for their music, and also L. Erickson of Stirling who came over on a moment's notice to help with the music.

The Decoration Committee, with Ed. Hawk as Chairman, added much to the success of the evening by the very patriotic and appropriate nature of the decorations.

The sum of \$331.10 was cleared toward the Memorial which was certainly a source of satisfaction to the Committee, and other functions will be sponsored to complete the memorial fund to the \$1,200 point.

Our "Jacks" lost to the "A.C.s" at Cardston last night, 28-38. Nuff said.

Jack Sharkey got a Technical K.O. over Phil Scott in the third round of their scheduled 15 round bout at Miami, Florida, last night.

MEMORIAL DONATION LIST

(To Feb. 27th, 1930)

Women's Institute	\$20.00
Mrs. P. W. Cope	10.00
Dr. G. W. Leech	25.00
Miss Walsecott	10.00
C. G. I. T. Girls	5.00
Mr. and Mrs. Chas. Huddle	2.00

Here and There

(476)

It is reported that coal deposits in Central British Columbia at Telkwa and Copper River, recently discovered, amount to 460,000,000 tons of bituminous coal.

Arne Pailson, national librarian of Iceland, the oldest surviving democracy where the thousandth anniversary of the first Parliament in the world will be held next June, arrived at Saint John on board S.S. Minnedosa, recently, with a view to visiting Canadian Icelanders. A Canadian Pacific ship will carry visitors to the great world gathering in Iceland.

A special train, a University on Wheels, is operating from Moose Jaw early in February and ending at Saskatoon March 15. It consists of two seed cleaning cars with lecture car and is bringing to farmers in out-of-the-way districts in the west the very latest in agricultural methods. The lecture car is in charge of officials of the Field Crops Branch of the Saskatchewan Department of Agriculture. The train is travelling over Canadian Pacific lines, with which company the department is co-operating.

Entries continue to pour into Victoria for the second annual Empress Hotel midwinter golf tournament over scenic Colwood course, February 17-22, for the E. W. Beatty Trophy and a long list of silver cups. With the new Club House at Colwood slated to open shortly, a heavy entry list is expected for this popular tourney which is attracting golfers from all over the United States and Canada.

The Quebec Winter Sports Association has decided to hang up cash awards for the winners of the Ice Canoe Race slated to be held February 23. Canoeists will leave Levis with their ice canoes, make their way across the River St. Lawrence to Quebec, take a bag aboard under the shadow of historic Chateau Frontenac, and then negotiate the half-mile stretch that separates the two cities.

"By careful selection of the character of colonists we can place in Canada we help in the development of the Dominion," Col. J. S. Dennis, former chief commissioner of Colonization and Development, Canadian Pacific Railway, and now acting in an advisory capacity to the department, said on sailing from Saint John recently on a trip of inspection to Great Britain and Europe. He will discuss certain agreements between the British Government and the C. P. R. regarding movement and placing of British colonists in Canada.

Canadians drink nearly 100 per cent. more milk than they did in 1921. The per capita consumption is about one pint per day, or 470.8 pounds per year, compared with about one-half pint per head of population in 1921. The milk consumption in the United States is about 458 pounds per capita per year or less than a pint per day per person. Canadians eat more butter than the people of any other country in the world—29.31 pounds per capita per annum—an increase from 25.79 pounds since 1921. Their appetite for ice cream has increased from 5.26 pints in 1921 to 7.04 pints in 1928, and the per capita consumption of cheese has risen from 2.51 pounds in 1921 to 3.54 pounds.

1932 GRAIN SHOW NOTES

THE TIME IS SHORT

1932 seems to be a long way off
 but when it is remembered that there
 is but the season of 1930 and that of
 1931 during which to grow grain for
 exhibit the time is short indeed. All
 grain for entry at the World's Grain
 Exhibition grounds on or before Mar-
 ch 1st, 1932. There is, however, no
 restriction regarding the year in
 which the grain is grown. Grain
 grown in 1929 or previously is eligible
 for entry. All entries must be grown
 under field conditions.

This Your Set?

Why put up with squeaks,
 squeals, growls that spoil your
 program. Call me. I'll end the
 trouble, and give it months of
 new life and usefulness. I guar-
 antee my work.

SAVE THE BABY TEETH

Because the first teeth or baby
 teeth are replaced by the secondary
 teeth, it should not be thought that
 they can be neglected and that they
 are of little or no importance. A clean
 mouth does much to make a healthy,
 comfortable, happy baby. A clean
 mouth means sound healthy teeth,
 which are needed to chew the food
 that will make the baby grow.

If the first teeth are allowed to
 decay, they cannot be used for chew-
 ing; the child does not secure the
 nourishment he needs, and, as a result
 he suffers. The tooth with an un-
 filled cavity will likely develop a gum
 boil, or an abscess, may form at the
 root. This, in turn, may infect the
 second teeth, or the infection may
 pass into the body and damage the
 heart. The baby tooth serves as a
 guide, as a place-keeper for the per-
 manent tooth which comes later. The
 early loss of baby teeth is a common
 cause of irregular and crooked per-
 manent teeth.

Healthy teeth are the result of
 proper food. The diet of the expect-
 ant mother determines the kind of
 teeth her baby will have for his first
 set. The diet of the infant and young
 child makes the permanent teeth and
 protects the first teeth. Most import-
 ant of all foods is breast milk. At
 three months, strained orange or tom-
 ato juice is added to the diet and, a
 little later cod liver oil. Cooked
 strained cereal is added at six mon-
 ths and cooked, strained green veget-
 ables at seven months.

The first permanent tooth to ap-
 pear is a back tooth or molar. It comes

in behind the last baby molar and is
 the sixth from the centre. We men-
 tion this tooth particularly because of
 its importance. It appears during the
 fifth, sixth, or seventh year and is
 often called the six-year molar. It is
 frequently regarded as one of the first
 set and neglected. It is most import-
 ant, however, that these four teeth be
 preserved, because upon their proper
 position depends much of the arrange-
 ment of all the permanent teeth.

Thumb-sucking the use of a com-
 fort, or the presence of adenoids,
 which cause the child to breathe thru
 the mouth, will spoil the shape of the
 mouth, throw the teeth out of align-
 ment and so interfere with their
 proper use in masticating food.

News Notes

Work on the new Town Hall will
 likely start before very long now.

"Jack" Mehew has the window
 frames and the doors in his new gar-
 age now.

The funeral over the remains of the
 baby of Mr. and Mrs. Lorn Larson
 was held at the home on Tuesday
 afternoon at 1 p.m. with Bishop H.
 F. Allen in charge. The speakers
 were Bishop Allen, and Counsellors C.
 E. Alred and Paul Redd, and C. D.
 Peterson, all of whom offered words
 of comfort and consolation to the sor-
 rowing parents. Jos. Nilsson played a
 number of pieces on his guitar, and
 Mrs. O. H. Snow and Ira McBride
 rendered several hymns.

TO WHOM IT MAY CONCERN

NOTICE IS HEREBY GIVEN that
 the Mayor and Municipal Council of
 the Town of Raymond propose pass-
 ing a By-law authorizing the Closing
 of the Alley running East and West
 between Lot 11, Block 2, Plan 20391,
 and Lot 1, Plan 5154 K, and extend-
 ing to a point One Hundred and Thir-
 ty feet west of Broadway Street.

Any person or persons having ob-
 jections to the closing of the said
 Alley shall file objections with the
 Secretary-Treas. of the said Town,
 at the Town Office on or before the
 thirteenth day of March, A. D. 1930,
 DATED at the Town of Raymond,
 in the Province of Alberta, this 24th
 day of February, A. D. 1930.

O. H. SNOW,
 Sec.-Treas.

TAKE NOTICE

CASH BIDS will be received by the
 undersigned, up to noon on March 13,
 1930, for the purchase of above lane.
 The highest or any bid not necessari-
 ly accepted.

PERCY W. COPE,
 Mayor.

APPRECIATION

The G. W. V. A take this means of
 expressing their deep appreciation to
 all those who so willingly assisted
 and patronized them in their Tag Day
 and Dance on Saturday, Feb. 22, 1930
 It was a decided success in every re-
 spect.

 Sec. Local G.W.V.A.

The Great West Festival at Calgary

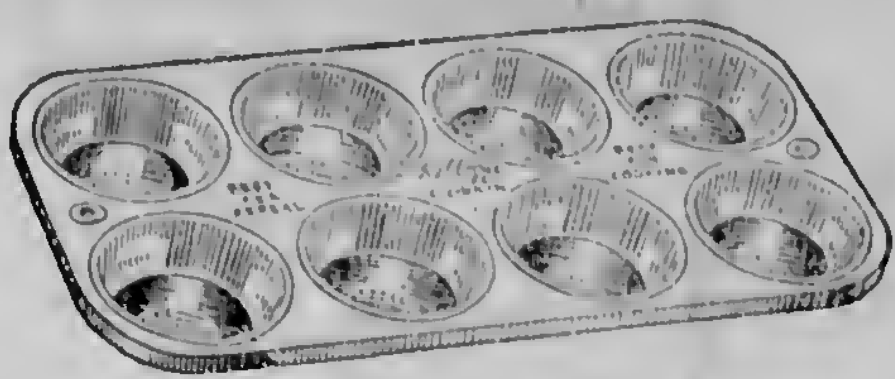

Picturesque costumes, pretty girls,
 clever dancers, marvelous ex-
 hibitions of native handicraft will
 be among the offerings given to
 the public at the big folkdance,
 folksong and handicrafts festival
 scheduled to be held at the Palliser
 Hotel, Calgary, March 19-22 next.
 A score of nations whose people
 have come over to the Dominion
 to swell the number of New Cana-
 dians in the West will show the
 treasures of art accumulated dur-
 ing the centuries of their national
 history and Canadian culture will
 be given an impetus from the

source which has always been the
 aliment of great art. This Calgary
 festival is the third of similar ones
 held at Winnipeg and Regina, and
 the first two proved so successful
 and awakened such interest that
 Premier Brownlee of Alberta asked
 for their repetition this spring.
 They are organized by the Can-

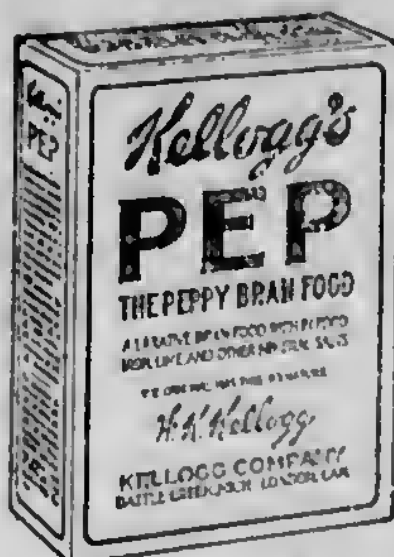

adian Pacific Railway and the com-
 ing one is also in co-operation with
 the Canadian Handicrafts Guild,
 Alberta Branch. Lay-out shows:
 top picture, group of Polish dan-
 cers; lower right, Irish Colleen in
 costume; lower left, Hungarian
 girl posed against platter of Hun-
 garian make.

THE WEEK AT EDMONTON

(Continued from front page)

agents be doubled. Mr. Hoadley
thought that a fine idea but there
was the lack of money and more im-
portant the lack of men to take the
jobs. In answer to Mr. Gironx he
said he had been unable to get a
French speaking agent for Mr. Gironx
a necessity. The discussion was en-
livened further by Mr. Shaw's novel
suggestion to select the next Lieuten-
ant-Governor from the ranks of Al-
berta's wheat kings as a fitting recog-
nition of their efforts.

The estimates of the Department of
Health amounting to \$1,597,671 passed
safely on Friday. The Minister,
Mr. Hoadley, faced a storm of ques-
tions over the Olsen case. Mrs. Ruth
Olsen died in Edmonton on January
21, of peritonitis, because the sur-
geon who had operated on her for
appendicitis left a towel in the in-
cision. The doctor was not held
criminally liable by the coroner. Mr.
Hoadley announced a conference to
be held on Saturday between Health
officials and the doctors and nurses.

Though hardly referred to in the
house, the wheat situation is becom-
ing the most important subject of
conversation in the corridors. Mr.
Brownlee is very non-committal be-
cause discussion adds to the uneasiness.
He has come to the aid of the
poor not so much to save it as to
save the basic industry of Western
Canada. Early in the week E. G.
Taylor, Conservative leader for Mani-
toba, suggested that the Dominion
Government should set up a wheat
board to market the crop. Mr. Brown-
lee left Thursday night to meet the
Western premiers and the Wheat
Pool heads at Regina. It should be
remembered that the wheat situation
is only part of a world-wide economic
tie-up affecting coffee, rubber, and
other raw materials.

Rule 28 for the guidance of Al-
berta's legislators is no more. All last
session and all this till Tuesday that
40-minute speech limit hung over the
orators like the sword of Damocles,
but now the members breathe freely
once again. Led on by W. H. Shields
of Macleod, and George MacLachlan
of Pembina, all parties combined to
sweep away the offending gag. They
would need it probably for the ghost
of Rule 28 will rise to haunt any
long-winded and prosy speaker from
this day forth.

Transportation is an important
matter in Alberta and Albertans do
not forget it. 7,311 of them are back-
ing up Donald Cameron the member
for Innisfail, in his effort to pass the
up for the third time proposes the
Trackways Bill. This scheme now
construction of a concrete, all-weather
road, 18 feet wide, connecting Ed-
monton, Calgary, Banff, Macleod,
Lethbridge and Coombs. The promot-
ers are D. F. Whitney and W. D.
Milner of Calgary and J. W. Mac-
Donald of Macleod. Those who use
the road will pay a small toll; those
who do not wish to pay the toll may
use the government roads.

Then, too, a delegation waited on
the Minister of Highways (Mr. O. L.
Macpherson) to ask for the construc-
tion of a secondary north-south road
from Hanna to Killam eventually to
be extended to Ranfurly and Taber.
The petitioners from the districts af-
fected were introduced by their repre-
sentatives in the Legislature: Messrs.
Forester, Sanders, and Andrews.

News Notes

Comfortable Ellis, A. P. P. McGrath,
was in Raymond the end of last week.

"Apple Sauce" was well received
in both Warner and Milk River, and is
being played in Stirling tomorrow
night, Saturday, March 1st.

Shingles have been laid on the Sec-
ond Ward Chapel during the past
week. They are of asbestos and make
a fine addition to the appearance of
the building.

**LETTERS CANNOT BE RETURNED
TO WRITER**

Ottawa, Feb. 26; (Special to the
Recorder).—Postmasters in the ap-
proximately 12,000 offices in Canada
receive upwards of 1,000 requests
each day for senders of mail that they
be allowed to retrieve it from the post.
In about half the cases an opportu-
nity to correct addresses is sought. In
the other half, people, on second
thought, decide the letter would be
better unsent.

Applicants, however, are doomed to
disappointment for when a letter goes
into a mail box or a post office the
sender loses his rights in it. It autom-
atically becomes the property of the
person to whom addressed.

Requests for the return of mail
have become so numerous that the
Deputy Postmaster-General, L. J.
Gahoury, has issued a warning to
Postmasters stating that "Mail
matter once posted must be forwarded
according to its directions. On no ap-
plication, however urgent, can it be
delivered back to the writer, or to
any other person."

Here and There

(468)

Nine competitions, including
men's and women's handicap
events, men's and women's team
matches and mixed foursomes will
feature the programme of the sec-
ond annual Empire and Winter
golf tournament to be played over
the Cobwood course at Victoria,
February 17-22. The H. W. Beatty
trophy is the chief award for the
men's and women's handicap com-
petitions.

Miss Connie Wilson, champion
skater of North America and
Great Britain, will take a star part
in the Ice Pageant of the Protonae
Winter Sports Club to be staged at
Quebec February 12-13. She will
be supported by the best skaters of
Quebec and a group of stars from
Toronto, including the champion-
ship four of the Toronto Skating
Club. Ottawa will be represented
by the Minto Skating Club and 24
lady skaters from Toronto will per-
form in the "Dance Moderne" num-
ber.

The greatest fireworks display of
the year, the "Pete de Nuit" exhibi-
tion at Quebec, recently, one of the
features of the Winter Sports ses-
sion which lasts until March, con-
sisted of a sham attack by hun-
dreds of snowshoos bearing
torches, upon the garrison of the
citadel. The heavy explosions of
Roman candles, bombs and rockets
began the attack, which culminated
when the besiegers were driven
back by the garrison, who sent vol-
ley after volley of blanks crashing
into the night. When the bugles
sounded the "Cease Fire", the show
was generally voted one of the finest
in years.

The outstanding contributions
that the Canadian Pacific Railway
has made to the life of the Dominion
in an industrial and cultural
way were emphasized by E. W.
Beatty, chairman and president of
the road, at a recent address before
the Canadian Industrial Traffic
League at Montreal recently. His
company, he said, had in the past
five years, spent over \$219,000,000
on capital account alone and dur-
ing the same period had built over
1,000 miles of branch lines. 1929
with its decrease in earnings, he
regarded as an exceptional year
not likely to be repeated in subse-
quent years.

A considerable increase in grain
shipments from Saint John has al-
ready been established since the
new year, over the entire month of
December, 1929. General Superin-
tendent J. Woodman, of the Cana-
dian Pacific Railway, states. Bush-
els of grain for December export
from Saint John totaled 533,357;
from January 1 to January 17, total
was 651,438.

The second annual Sea Music
Festival of the Pacific Coast passed
into history January 19, when once
again capacity houses greeted the
final offerings. Outstanding among
the features were the two ballad
operas, "The Order of Good Cheer"
incorporating French-Canadian sea
chanties of the 16th century, and
"Bound for the Rio Grande", a rid-
dick-ing sea-song playlet by Captain
Frederick Wallace. Each of these
was repeated by request on three
successive days.

The 16th annual winter carnival
with the first official Western Cana-
dian Ski tournament will be held at
Revelstoke, February 4-5. World
records have been made on the ski
hill at Revelstoke, and leading ski
jumpers of the continent will at-
tend the carnival.

mond on main road. Attractive Prices.

Ellison Milling and Elevator Co., Limited

**Beet Growers Back Drive For
80,000 Ton Beet Crop in 1930**

**EXECUTIVE OF GROWERS' AS-
SOCIATION MEET SUGAR COM-
PANY OFFICIALS AND RATIFY
1930 CONTRACT — ACREAGE
CAMPAIGN STARTS MARCH 1**

Approval of the 1930 beet contract
was given by the executive of the
Southern Alberta Beet Growers' As-
sociation who met in the farm bu-
reau here Friday with President Louis
Brandley in the chair. A full executive
was present, also T. George Wood,
general manager of the Sugar Com-
pany, and Frank Taylor, agricultural
superintendent. Assistant Agri-
cultural Representative Charles Giffen,
was also in attendance.

The acreage campaign will start
about March 1, and the growers will
assist in rolling up the area actually
planted to beets this spring to be-
tween 13,000 and 14,000 acres. It is
season, 80,000 tons of beets will be
produced, counting losses during the
slicing at the Raymond factory this
fall. This is the objective now and
Mr. Wood expressed his firm convic-
tion that it can be reached in view
of the determination of the farmers
to raise beets and the unsettled out-
look for wheat. The campaign for
acreage will be a co-operative one,
the growers being intensely interest-
ed this year because of their desire
for a second factory in 1931.

More Dumps

To handle this tonnage said Mr.
Wood, the sugar company will erect
a number of new dumps and provide
additional storage at the dumps and
the sugar run at the Raymond fac-
tory will be extended. "I am satis-
fied every acre of well prepared land
can be taken care of this year. But
we don't want our growers to plant
beets on poorly prepared land. It will
only lead to failure and disappoint-
ment and our agricultural depart-

ment are wisely advising against this
slipshod practice. Beets should go
in the ground under the best possible
conditions, for we are all anxious to
increase the beet tonnage and to lift
our sights from eight tons to a high-
er tonnage level per acre. This can
be done," Mr. Wood declared.

Growers Behind Industry

Many of the growers present held
this same conviction and every effort
will be made this year to step-up pro-
duction so as to insure the establish-
ment of additional factory units.

In addition, the growers association
went on record as backing a campaign
to popularize Alberta sugar and
increase its consumption. A poster
and other literature will be issued ap-
pealing to the public to use sugar pro-
duced on Alberta farms.

Educational Campaign

An educational campaign will be in-
augurated commencing about March
5, when W. H. Snelson, senior irriga-
tion specialist for the federal govern-
ment at Brooks, Asst. Supt. A. E.
Palmer of the Experimental Farm
and members of the sugar company's
field staff will give lectures and dem-
onstrations.

The falling off in beet acreage in
the Raymond, Stirling and Magrath
districts was deplored by the execu-
tive and every effort will be made to
increase production in that area. It
was announced that the sugar com-
pany will supply growers with beet-
lasses at \$15 a ton, \$2 less than the
price to the general public, and it is
expected that this feed product will be
moved by the carlot to Taber-Bara-
well, the Lethbridge Northern and the
United district as it is in great dem-
and for livestock feeding. Much of it
is going to Saskatchewan, Mr. Wood
said.—Lethbridge Herald.

T. Geo. Wood returned last week
from a business trip in Calgary.
